

Quality criteria of the Network

COMINTER NETWORK

Education and Culture
Lifelong learning programme
LEONARDO DA VINCI

THE FORM : Description

- No more than two, to be contacted, even if more than 2 people are involved,
- precision about the language to be used when phoning
- note if you are member of another network
- precise if it is a small or a big training centre
- On the website, a map will be put to locate the town of the training centre.

The form :Range of training courses

- Description of the diplomas, the specialisations, the number of training years and the number of students involved in each diploma, just formal trainings, initial and continuous trainings.
- If the relation with EQF is ignored, it is possible to precise the equivalences, even if they are informal.
- If these information are not updated by the training center of the website, the demand will be cancelled.

The Form : Experience of the training centre in an international context

- All the experiences must be precised even if the partner does not belong to the network
- Number of students the training course is able to welcome.

The Form : Training

- Teachers and trainers : teaching abilities in foreign languages, level of flexibility
- accomodation conditions : housing structures must be precised
- training organisation : in some countries, practises are compulsory – In other countries, it is available
- There will be a data base in the website working with accurate criterias

Links with the foreign labour market

- For each country, it will be important to precise the legal context which is different if you are a worker or a student : social protection, laws...

AGREEMENT PROCEDURES

COMINTER NETWORK

Who accreditate

- In Cominter project, there are special official organisms to accreditate.
- 2 situations :
- Countries members of the Cominter network :
Competent bodies in Cominter to accreditate
- Others : it is necessary to contact a competent body in the country and come to the network

Quality criterias

- transparency on the training organisation : students, training process...
- Transparency on the planning assessment
- system of quality maintenance (ISO, external assessment –evaluation, board...-)
- structural relations with companies : mutual trust between the country and the companies : agreements, conventions..., compulsory links for the training
- guidance during workplacement : responsibility for the training process in companies, choosing the right companies for the right students
- accomodation : not provide but facilitate, give information
- performance : results, implementation of the qualification, quality of mobility
